The above mentioned game is approved for use in New Jersey as an amusement game, as defined in the Amusement Game Licensing Law, N.J.S.A. 5:8-100 et seq. ("Law"), and the regulations promulgated thereunder, N.J.A.C. 13:3-1.1 et seq. ("Regulations"). This approval is based upon information supplied by the applicant at the time of application for certification. The game must be operated in accordance with the specifications submitted and the terms of this certification. Any modification of the manufacturer's specifications or the specified method of play immediately voids this certification.

It is unlawful to operate any amusement game in the State of New Jersey without a valid certification.

This certification is conditioned upon the following:

Drill-O-Matic is a single player game. The object of the game is for the player to guide a "Drill", using a joystick, into position to push a prize out the backside of a tube. The joystick moves the "Drill" up, down, right or left. Once the player has maneuvered the "Drill" in the desired position, the player activates a red button on the joystick to move the "Drill" forward towards the prize tube. If the "Drill" clears the tube edges a prize is pushed out the back of the tube and the prize drops down to a redemption area at the bottom of the cabinet. If the "Drill" hits the edges of the tub, the "Drill" will return to the beginning position, ending the game with no prize awarded.

- 1.) The maximum price to play shall not exceed values set forth in N.J.A.C. 13:3-3.4.
- 2.) Game shall be clean and free of debris.
- 3.) Game shall be installed and maintained according to manufacturer specifications.

This certification is not a license to operate the captioned gambling device. The device may only be operated in a location specifically approved for the operation of amusement games pursuant to the Law and Regulations.

The Commission reserves the right to suspend, revoke or modify this certification upon notice to the manufacturer and/or applicant.
